Death, Accidental, Due to Hydrofluoric Acid 383
Death, Sudden and Unexpected, Due to Congenital Tricuspid Deficiency 396
Death by Drowning, Significance of Diatoms in Diagnosis 11
Deaths, Sudden Asphyxial, Pulmonary Edema During Agonal Period (experimental) 360
Deaths, Unexplained Infant ("Crib Deaths"), Tissue Constituent Associated Characteristically with 157
Decomposition (associated carbon monoxide findings) 330
Deformity, Brain (hydranencephaly associated with trauma, in infant) 168
Diapositives, Use of, in Document Examination 520
Diatoms in Diagnosis of Death by Drowning, Significance of 11
m-Dinitrophenyl Type of Pesticides in Biological Material, Detection and Estimation 47
Document Examination, Use of Diapositives in 520
Documents, Questioned, Infrared Luminescence Using Glass Filters ... 89
Drivers, Drinking, in an Eastern Ontario City 271
Drowning, Significance of Diatoms in Diagnosis of Death by 11
Drug Combinations, Fatal Poisoning with 53

E

Edema, Pulmonary, During Agonal Period of Sudden Asphyxial Deaths (experimental) 360
Electron Microprobe, Forensic Applications of 511
Embolism, Fat, in Fatal Automobile Accidents 201
Ethanol, Other Volatile Substances in Blood, Quantitative Determination by Gas-Liquid Partition Chromatography 255
Ethchlorvynol, Rapid and Specific Method for Determining 342
Evidence, Scientific, Legal Limitations 301
Evidence Evaluation: Expert and Legal Certainty 445
Evidence Evaluation: Fingerprints, Nature of Proof 413
Evidence Evaluation: Principles of, Applied to Firearms and Tool Mark Identification 428
Evidence Evaluation: Problems in General Criminalistics 434
Expert and Legal Certainty 445
Expert Witness, Role and Rights of 456
